Application No. 10/718,325  
Amendment dated May 25, 2005  
Reply to Office Action of March 25, 2005

**REMARKS**

This amendment is submitted in response to the Office Action mailed March 25, 2005. Claims 1-15 remain pending in the application and have been allowed. Applicants thank the Examiner for the indication of allowance with respect to these claims. The application has been amended, as suggested by the Examiner, to address formal matters. The following remarks are respectfully submitted.

**Objections to the Drawings**

The drawings were objected to under 37 C.F.R. § 1.83(a) with respect to the electromechanical actuator, friction member, and rotational component features recited in the claims. A new drawing sheet depicting new Fig. 5 is submitted herewith for review and approval by the Examiner. Fig. 5 depicts an exemplary vehicle disk brake as depicted in Fig. 1 of German Patent 198 19 564, referred to in the application at page 1, lines 5-13, and recited in the originally filed claims. The specification has been amended to include text corresponding to new Fig. 5. Accordingly, Applicants respectfully assert that no new matter has been added by new Fig. 5 or the amendments to the specification. Upon the Examiner's approval, Applicants respectfully request that the new drawing sheet depicting new Fig. 5 be accepted and that the objections to the drawings be withdrawn.
